**PRO-SWEEP HORSE MUCK COLLECTOR MSP120W** - 1.2m wide powered brush which sweeps droppings into a large hopper 10 times faster than by hand or vacuum system.

**PRO-SWEEP** - seen here fitted with the optional tine bar to break up 'rained-in' droppings. Wide wheels front and rear are suitable for soft ground.

Emptying the hopper is easy with the geared winch.

Pro-Sweep is also perfect for leaves, grass clippings, acorns, cleaning yards and roads.

**FLAIL MOWER MFP range** - an extremely versatile product, at home on roadsides and lake verges as well as grass paddocks. Finely mulches all cut material which produces a great finish.

Wheels behind option allows close cutting up to walls and trees, etc.

**ROTARY MOWER TRM120** - perfect for the regular topping of large paddocks.

1.2m wide with triple blades, simple adjustment, off-settable drawbar and remote throttle control.

Wheels behind option is ideal for this narrow field margin and anywhere with restricted access.

**PRO-HARROW LPH200** - 2.0m wide with 3 operating positions from mild to aggressive action using 34 'Einbock' spring tines. Perfect for grass or gallops and all weather surfaces.

**PRO-HARROW** - easily operated over-centre lever allows effortless lifting in and out of work.

**WEED WIPER CTF250DSK** - applying chemical to targeted plants, saving valuable grass and clover, giving excellent results with a fraction of the chemical used compared with conventional spraying.

**TIMBER HAULER THT400** - very strong compact unit with tandem axle for easy towing in difficult conditions.

**TIMBER HAULER THT200** - with gripping cradle turntable for extraction of thinnings or large logs.

**DECK MOUNTED SPRAYER DMS390S** - 270 litre capacity and 9 litre/min pump features a remote control for operation from the driver's seat. Seen here with OBS104, 3.0m boom.

**TRAILED SPRAYER TS680** - 600 litre capacity and 25 litre/min pump controlled by remote electric on/off and manual pressure regulation.

Designed and manufactured in the UK to provide top quality equipment at outstanding value for money

**BALLAST ROLLERS** BR150/180 - 1.5m or 1.8m wide are ideal for levelling damaged grazing paddocks or firming re-seeded areas. Large diameter barrel allows easy towing.

**TERR-ATOR** LTA160 - 1.6m wide with 32 blades to produce slits to break up compacted ground, improving drainage and grass growth.

Slits formed by the Terr-ator.

**TIPPING TRAILER** TGT400 - tapered body for easy emptying.

**ARENA LEVELLER** Pro-Grade PG250T - is designed to work on a wide variety of surface types, from sand to sophisticated rubber-compound surfaces.

The Pro-Grade has an operating width of 2.5m. With the perimeter plough open (as shown) the built-up material is pulled in from the side boards - once closed, it allows the rapid levelling of the whole area. The over-centre raise and lower lever enables easy transporting to and from the storage area, as well as the ability to reverse right into corners.

**GANG WEED WIPING** CTF750 - 7.5m wide, up to 8.5Ha (21 acres) per hour can be achieved depending on ground conditions. The units 'park up' to give a transport width of 2.7 metres.

**TRAILER** STT400 - 1.5m x 1.0m x 0.38m very strong, for general purpose use.

**LIVESTOCK FEEDER** LMF870K - 356 litre capacity, larger 25x10-12 wheels, tonneau cover and sheep fender.

**TRAILER** SST407TP - 1.5m x 1.0m x 0.8m with flotation wheels and side hinged tailgate, an ideal livestock trailer, part of a large range.

**BALE TRAILER** LBT100 - for round bales up to 600kg.

Winch system for one person loading and unloading.

**ELECTRO BROADCASTER** EBC-TFS120PSL - 130 litre capacity for slug pellets, small seeds and granules. Remote on/off with variable disc speed control for operation from the driver's position.

**BOWSERS** SLB400/600 - 270 litre or 600 litre capacities with flotation wheels for use on soft ground. Features include a strong chassis, 2" diameter outlet hose, 1/4 turn tap and large ventilated lid for easy filling.

**GAME FEEDER** EBC-TSS300PH - 300 litres capacity, de-mount or trailed models feature a stainless steel hopper. 85 and 130 litre capacity models also available.

**TRAILED GAME FEEDER** LGF850 - 340 litre capacity which can be increased to 610 litres with an optional extension kit, perfect for larger enterprises.

**GROUND DRIVEN SALT SPREADER GDS150R** - is the smallest in the GDS range and is designed for use with any type of road salt including wet rock salt, used behind an ATV, UTV or similar vehicle. It has a stainless steel hopper and will spread from 1.5 to 12.0 metres depending on forward speed. Seen here in use with an ATV and **SNOW PLOUGH S228**.

**GROUND DRIVEN SALT SPREADER GDS250R** - seen here with an optional Flashing Beacon GDS106.

**POWER BRUSH S215H** - with an operating width of 1.35m is ideal for rapid cleaning of roads, yards and footpaths, etc.

**ENGINE DRIVEN SALT SPREADER PDS354D** - can be secured in a pick-up or onto a trailer to provide a versatile spreading unit. Trailed model also available.

**POWER BRUSH UTS215BR** - for front use on UTVs has a 1.68m width and remote electric controls to angle and lift the brush.

**SNOW PLOUGH UTS201** - 1.8m wide with electric raise and lower. It has a rubber wearing strip and 'break back' safety system.

**DE-ICING MOUNTED SPREADER EBC-TSS300PP** - 300 litre capacity for specialist free-flowing, de-icing products. (Not rock salt)

**DE-ICING SPRAYER TS410S** - 270 litre capacity for use with specialist de-icing liquids in sensitive areas.

**GROUND DRIVEN SALT SPREADERS GDS200R / 250R** - featuring a choice of standard gearbox for spread widths of 1.5 - 10.0 metres or high speed gearbox for 3.0 - 14.0 metres, at speeds between 5-15 mph.
